

IT'S COMING...

FLU SEASON IS A FEW SHORT MONTHS AWAY. Absenteeism, lost productivity, interruption of service, and increased health benefit costs are just a few of the challenges employers face when flu strikes the workplace.

IT'S ESTIMATED THAT FLU COSTS THE CANADIAN ECONOMY ABOUT ONE-HALF BILLION DOLLARS ANNUALLY. Flu can spread easily in the workplace. It's not uncommon for employees to be absent for a week, and the loss of productivity that follows could last weeks after that.

VACCINATION IS ONE OF THE MOST EFFECTIVE WAYS TO PROTECT AGAINST THE FLU. You can minimize the effects of flu on your workplace by offering seasonal flu vaccinations to your employees.

HOMWOOD HUMAN SOLUTIONS™ IS OFFERING ON-SITE FLU VACCINATION SERVICES FOR YOU AND YOUR EMPLOYEES. These services are provided through The ECM Group—a Homewood Human Solutions' division specializing in occupational health.

FLU CLINIC COSTS ARE BASED ON THE NUMBER OF VACCINATIONS TO BE ADMINISTERED, AND THE NUMBER OF HEALTHCARE PROVIDERS REQUIRED PER CLINIC. Each clinic includes a healthcare provider to administer the vaccine, an information sheet on the flu, and flu prevention tips offered by the onsite healthcare provider.

HOMWOOD HUMAN SOLUTIONS WANTS TO HELP YOU MAINTAIN A HEALTHY AND PRODUCTIVE WORKPLACE DURING THE UPCOMING SEASON.

Contact me today to arrange a flu clinic for your employees.
